Summary

I am a computer science student with a passion for software development and a strong desire to learn new technologies and programming languages. I have experience in iOS app development using Swift and have worked on a variety of projects, from personal apps to client work. I am also interested in web development and have some experience with front-end and back-end technologies.

Professional Experience

IBM   **Jun. 2022 - Present**

Software Engineering Intern

- Development of iOS applications using Swift and SwiftUI;
- IT consulting for client companies;
- Project and development team management;
- Testing and support for client applications.

Education

Pontifical Catholic University of Paraná (PUCPR)
Bachelor of Computer Science   *2021 - 2024*
Federal Institute of Rio Grande do Norte (IFRN)
Integrated Technical Program in Mechatronics   *2016 - 2019*

Additional Courses

- iOS Development (166h) - PUCPR, Bradesco and Visionnaire - 2022
- Wipro Bootcamp (120h) - Gama Academy and Wipro - 2022
- Back-end Java Bootcamp (157h) - WoMakersCode, iFood and PicPay - 2022
- Full Stack Development (750h) - Cubos Academy and iFood - 2021
- Luiza Code 3rd Edition: Node.js (94h) - Gama Academy and LuizaLabs - 2021

Skills

- Swift, SwiftUI, UIKit
- iOS Development
- Agile Methodologies
- Project Management
- Team Management
- Object-Oriented Programming
- Test-Driven Development
- RESTful APIs
- Git
- SQL, MySQL, PostgreSQL
- HTML, CSS, JavaScript
- Node.js
- React.js
- Java
